Aug 2017 - Aug 2022

- Designed and deployed web applications, yielding a 25% increase in productivity and improved user engagement through robust project management.
- Led development of an award-winning patient records system, increasing client satisfaction by 32% and optimizing performance by applying Agile methodologies and Scrum practices.

EDUCATION

University of Houston

Master of Science, Management Information Systems (GPA: 3.9)

Jan 2024 - May 2025

Houston, Texas

GIET College

Bachelor of Technology, Civil Engineering (GPA: 3.8)

Oct 2013 - May 2017

Raj, India

PROJECTS

Real-Time Energy Demand Forecasting for Community Resilience

- Developed an AI-based system to predict energy demand, optimizing power distribution during extreme weather conditions, reducing outages by 20%

SHERP - Shark Tank Competition

- Developed AURA THRIVE, an AI-powered app for HIV/AIDS prevention with anonymous chat and AI-driven cognitive therapy.
- Conducted data analysis using R Studio and Tableau, contributing to a 2nd prize-winning health equity solution.

Second Annual MBA Crisis Competition

- Developed and presented real-time solutions for hotel construction challenges in Guatemala, earning 3rd place.

USAEE Case Competition - SMRs

- Secured 2nd place by analyzing Small Modular Reactors (SMRs) regulatory and economic landscape, delivering a strategic report.

Chess AI Game

- Designed a Chess AI application integrating Stockfish engine, enabling users to play against AI with adjustable difficulty levels, improving strategic decision-making skills.
